

LEASE TO OWN YOUR MICRO-FARM

We are pleased to offer third party financing options in order to allow clients to lease-to-own their Micro-Farms. Our preferred leasing party is CCA Financial, LLC.

The leasing costs range from \$370 to \$450 per month per Micro-Farm over a 36-month term based on credit approval. Our arrangement allows us to include the \$350 monthly service paid to Babylon Micro-Farms into a combined monthly payment for the lease term. At the end of your lease term Babylon is willing to pay the buyout fee if you commit to continuing your partnership with Babylon and sign a 36-month service agreement.
