

SUSTAINABILITY | LOGO USAGE EXAMPLES

DISPLAY THE LOGOS, AND TELL THE STORIES!

The Sustainability Practice logos can
be used and displayed in many
different ways

The key is to really think about what
you can "own" with a sustainability
story, and how you visually tell the
message to your partners, clients and
guests

You are all doing great things and
making great strides

...and people want to know about it....

This branding will help open up those
conversations
